Who Is Baseline Solutions, Inc.?

Baseline Solutions, Inc. (BSI) is a consortium of network technology experts and a provider of vendor independent network and application evaluation solutions. BSI utilizes an array of industry-recognized tools to provide expert, vendor independent assessments of local and wide area network availability and performance.

We are committed to providing customers with the ability to understand the relationships between the network, its major components *(databases, applications, servers and key network devices)* and how these relationships affect the overall business objectives. Our customized business solutions blend people, processes, and technology to achieve a clear, effective strategy. Our services can be tailored to all sizes of networks, even those undergoing the extreme effects of mergers and acquisitions.

Baseline Solutions, Inc. offers solutions in the following practice areas:

- Network Design & Engineering
- Integrated Network Monitoring & Management
- Strategic Operations Planning

- Information & Network Security
- Network & Application Troubleshooting
- Program Management
- Systems Management & Performance Tuning

Our Team

Each of our consultants has more than 10 years of industry experience to assist you in obtaining your information technology and business objectives. Our team has working knowledge of many of the key drivers facing operations teams in a diverse range of business segments.

Some of the business segments where our consultants have applied their experience are:

- Internet Service Provider - Traditional
- Broadband Service Provider
- Telecommunications
- Financial/Banking
- Insurance

- Health Care
- Manufacturing
- Public Utilities
- Government
- Retail

In addition to this business knowledge, many of our consultants have completed the requirements for many industry recognized technical certifications including, Novell's Certified NetWare Engineer (CNE), Network Associates Certified Network Expert (CNX), Cisco Systems' Cisco Certified Network Associate (CCNA), Cisco Systems' Cisco Certified Network Professional (CCNP) and the (ISC)²'s Certified Information Systems Security Professional (CISSP).

These combined credentials give the Baseline Solutions' team the ability to effectively assess the condition of your corporate technology infrastructure and provide real options and insight into the most effective way to leverage your existing technology investment to meet new or changing business objectives.

Partnership Advantages with Baseline Solutions

- We allow your staff to maintain critical services and continue operations essential to your business without sacrificing longer-term strategic planning initiatives.
- Our consultants are well versed in industry best practices and utilize that knowledge to benefit your business.
- We provide, unbiased, vendor neutral technology expertise ensuring that the best mix of products and services will be exploited to meet your unique requirements.
- Our team members have more that 10 years of industry experience to assist you in accomplishing your project objectives.

It's Not Just Your Network that's on the Line.
It's Your Business.
